YOUNG HOPKINS RETIRES.

Resigns the Treasurership of the Southern Pacific Company.

Av Francisco, April 3 .- Timothy Hopteed out by the Huntington and Searles lerests. It has also been rumored that esident Huntington wants this place this favorite nephew, H. E. Huntingn, whom he has selected as the future a good knowledge of the practical ess end of the road in two or three and to have Towne train him in the

deries, he has never permitted any waste iron shirts with him.

One of his economies was the use of a good article of manila paper for correspondence instead of Irish linen, by which he saved several thousands of dollars annually. Timothy was more than mere treasurer, for he negotiated all the loans secured in this market.

There is general regret among the old employees over his retirement, as ever since the railroad company was founded thirty years ago one of the Hopkins family has been in charge of the cash.

of the people of Big Stone Gap met pied in caring for the property which was recently deeded to him by Searles. It comprises more than a dozen pieces of real estate in San Francisco, which Tim will improve. He also carried on the largest flower garden in the State at his Menlo Park estate. He marked his retirement from railroad work by giving to Stanford University 1,000 volumes and 1,000 pamphlets on the history of railroading, with money to increase the collection.

TILDEN'S ESTATE.

Almost Half of the Property Absorbed in

NEW YORK, April 2 .- The appraiser of the Samuel J. Tilden estate filed the report to-day in the Surrogate's Court at White Plains. The total value of the real and personal property is estimated to be seing that a Fair is held here this \$5,189,681. After the expenses, various trusts, settlements, etc., are deducted the or talk had been indulged in for balance will be \$3,207.792 to be divided among the heirs at law. Among the expenses is the sum of \$300,000 for litigation in contesting the will, and legal expenses are also charged at \$146,000. The commissions of the executors of the will are \$148,135. To Mary B. Peiton, sister of the following as the officers of Mr. Tilden, one half the estale was due, as the nearest living hair, but as she died before the estate was settled her share goes to her heir, Mrs. Laura Haggard, who is entitled to \$4,603,895. When the will was broken Mrs. Haggard signified her desire to have the wishes of Mr. Tilden carried out in regard to the trust which he created in his will. She, therefore, is to take News, John Slack, \$1,000,000, relinquishing the rest of her and Conjer Geo, Graham, Wash- share to the trust. There are six direct Mai McConnell, Scott heirs to the estate besides Mrs. Haggard. Va. C.F. Flanary. Wise county, Thoy are each to receive \$266,316. The Riscaid, Lee county, Va., G. appraisal will be confirmed by the Surro-Fratt, Augusta county, Va., H. C. gate on April 11 if there are no objection

ALICE MITCHELL.

Va., M. P. Jackson, Buchanan The Murderess Inherits Her Sexual Perversion, Says Dr. Comstock.

> Sr. Louis, Mo., April 1 .- The Mitchell-Ward murder case at Memphis has led to the issuing of a suphoena to a St. Louis physician. Dr. T. F. Comstock, formerly the physician to the Mitchell family.

Mr. George Mitchell, the father of Alice, was in business in this city in 1860. Dr T. Griswold Comstock was the attending physician of Mrs. Mitchell in her first confinement. At that time Mrs. Mitchell had puerperal insanity, and finally, upon the advice of Dr. Comstock, was sent to an int of G. H. Spaulding, a boy of nine- sane asylum, where she remained some months, and then seemingly recovered. She was, however, insane subsequently, and was so regarded at the time of the birth

> Counsel for Alice Mitchell sent an athim a hypothetical case, representing the case of Alice Mitchell. In a deposition made by Dr. Comstock a history of the first confinement of the mother was given and his decision in the hypothetical case that the murderess is a sexual pervert, of unsound mind, and that the mental trouble is hereditary insanity.

SHOWERED UPON THE EARTH.

Men Torn Literally to Atoms By a Tremendous Explosion.

BIRMINGHAM, ALA., April 1 .- The plants of the Sterling Dynamite Company, located near Bessenger, exploded this afternoon, causing terrible destruction and instantly killing Walter Lake, George Hartly, Ed Boykin and Frank Boykin. Nobody knows the cause of the explosion. ter walking a few rods along the Frank Boykin, aged 15, was the engineer, Whalen picked up a broken, jagged and was seventy-five yards from the scene of the explosion. He was killed by flying timber. The other three men were in the and made 12

It contained hundreds of tons of dynamite. When it blew up the men were torn into fragments: The largest part of any body found was a foot, which was half a mile away across a creek. When found the shoe had been torn off, but the back remained intact.

Trees for two acres around were uprooted, and a hole twenty feet deep and a hundred feet wide marks the place where the packing house stood. A ten-acre field ken by the Government indicate that senear by was covered with splinters and fragments of flesh from the explosion. Med mother's will, has resigned as The flesh of the three men was gathered up by an undertaker and put into three small boxes. The body of Frank Boykin was not badly mutilated. The financial loss is \$15,000. The debris took fire and burned, completing the awful destruction which the explosion had wrought. Lake and Hartly were married men. The Boyking boys leave a widowed mother.

IRON UNDERSHIRTS.

Worn By Kentucky Boys to Prevent Assassination.

Hopkinsville, Ky .. April 1 .- An unknown man, of bold appearance, called upon H. C. Ballard, a tinner of this city, yesterday afternoon for the purpose of having an undershirt of metal made, which would be worn next to his body, and ward of relief in commercial circles. The streets off the knives and bullets of assassins, by present a normal Sunday aspect. whom his life has been threatened because Pacific for eleven years. Note .- District No. 4 has the ore ("Oriskany") 100 miles and more from the coke. No. 8 has the same ore within a few miles of coke. Nos. 5 and 6 have red fossil ore within a few miles of coking coal, but coke from Nos. 7 and 8 is now being carried to furnaces in districts 5 and 6, because of superior quality. No. 8 has red fossil ore of Nos. 5 and 6 as near to coke; has brown ore of Oriskany nearer to coke than in district No. 4, and has brown ore ("Pottsdam") in great abundance along northern base tor, with two other helpers. Muldoon of Great Smoky Mountain nearer to coke than are the same ores to the coke in disto examine Dr. Comstock and presented to trict No. 7. It will be seen that No. 8 has the combined advantages of Nos. 4, 5, 6 and 7 in addition to being nearer to the great deposits of pure magnetic ores of the Johnston, "and he will be in New York Cranberry region.

THE BARBER WENT INSANE.

Out of the Chair.

JEWETT CITY, CONN., April 2 .- William en with me." The barber's eyes grew bing his hands Jackson sprang from self, and started down the street with Reese in close pursuit. Reese stumbled and fell, and was quickly overcome by several gentlemen who had been attracted by the chase. He was locked up, and will be taken to the asylum.

PRECAUTION AGAINST MUTINY.

Argentine Republic Officials Guarding From Revolt.

nary precautions that are now being tarious danger is feared from the troops. Fven the officers cannot pass through the lines; the sentinels are doubled; the soldiers sleep in their uniforms; the batteries of field artillery are constantly horsed, cavalry is incessantly going the round of the camps and the war arsensal is guardclubs are in possession of the police. The Radicals deny that they intended to revolt and assert that the dynamite stories are an invention of the Government, the sole of 30,000 citizens.

President Pelligrim declares that he holds letters in Dr. Alems' hand writing proving that there was a plan of revolt. Saenz Pena, the accepted candidate for the presidency, approves the strong measures taken by the authorities. On the Bourse there has been no panic, now that the crisis has come, and there is a feeling

SHE STOUTLY REFUSED.

Monday he told Jordan to hunt another boarding house. He stated that she was wanted to stay with her again. She said: "I have told you that we could never spend a night together again." To this Adams replied: "Jordin shall not come to your room this night. If he does he will walk OVER MY DEAD BODY."

He took his position in the hallway on a lounge. At 2 o'clock this morning Jordan reached the house. He was met at the door by Adams, who ordered him off. When he refused to go Adams picked up Prof. John R. Proctor, Director of the been the marvelous increase during these a chair and said: "You - , I will may be difficult to obtain on account of kill you." Jordan whipped out his pistol the continued prostration of the teleand fired two shots. One of the balls, a a dead man.

Jordan was immediately arrested and is now in jail. Public sentiment is against

THE BIG MATCH RATIFIED.

Sullivan and Corbett Sign Articles to Fight in New Orleans on Sept. 7.

Unless some unforeseen event occurs says the New York Sun James J. Corbett of San Francisco, Cal., and John L. Sullivan of Boston, Mass., will meet on Wedthorities of the Olympic Club having arranged the articles more in accord with the ideas of the principals, who each desires to gettle the question of superior-ity. Jimmy Wakely, in the absence of one has been reported injured. ify more particularly the improvement in | The coke plants at Big Stone Gap, sires to settle the question of superior-Charley Johnston, affixed his name to the self, so that there is now slight possibility

Each side will post \$2,500 forfeit money, thus guaranteeing the appearance of their principal in the ring when called by the club's officials. Corbett's money, it is said, will be furnished by one of the Dwyer brothers and a member of the New York Athletic Club. while Sullivan's old, tried, and true friends, Messrs. Johnston and Wakely, will supply the big fellow sinews of war."

The stake will be \$25,000 and a side bet gest sum ever fought for in the history of 25 the remaining amounts of the forfeit money must be placed in the stakeholder's hands, and if either side shows the slightest inclination to quit it will mean virtual oblivion to him and his advisers.

Corbett will begin his work of preparation on Friday, June 10, at Asbury Park. N. J., under the mentorship of Jim Daly, his sparing partner, and Joe Delaney Corbett places great reliance in surf bathing, and will make that quite a feature of

his training work. John L. will train at one of the seashore resorts on Long Island, Charley Johnson having settled that point on Saturday, when, at a late hour, he returned from his health recuperating trip to the Hot Springs. Jack Ashton will be John's men-

won't be in it at all.

"Sullivan is perfectly confident," said about the last week in May, when he closes his road season, and will go at once to the quarters he will select. He is not drinking at all now, and weighs about 250 pounds, and will take off at least thirty or forty pounds by six weeks of hard work. I look for a short, sharp fight, for I still believe John L. Sullivan to be the hardest puncher in the game. Corbett is young and ambitious, but it will take all of his vitality to withstand a few of the blows that I am sure Sullivan will land, and yet I regard Corbett as the best man of the lot, as Slavin would be an easier mark than the Californian, whose manly qualities I much admire. Charley Mitchell is the man John L. wants to get at, but I never expect to see that paper fighter before John in the ring, but oh! what a mark use his fists at all, is Charles Mitchell added Jonnson.

SIXTY VICTIMS.

The Death Roll of the Tornado in Kansas -Freaks of the Wind.

KANSAS CITY, Mo., April 4 .- As the telegraph service is being re-established through the storm-swept district of Kansas, many strange stories are being brought in about the frieks of the wind which caused so much devastation all over the western part of the state.

The list of dead and injured is increased with every new report received and it is now estimated that the list of fatalities will reach sixty within the State border, while three are reported killed in Oklahoma. In most instances those who were killed died instantly from being struck by flying debris, and in only three or four

principally broken limbs and severe con- of the State, dotted with small cities tusions. In very few cases will the inobject being to prevent a mass meeting ing the opening of the Exposition will juries prove fatal, although many victims were compelled to lle all night in the soak- sides. Hundreds of telephone wires are ing rain which followed the storm.

A son of William Eggers, in Butler county, was taken from his father's arms by the force of the wind and dashed to death against a tree in front of the horrified parents, while the father barely felt the force of wind. James Wilson, in Greenwood county, was caught up by the ed against the side of a barn where a of the Big Stone Gap Improvement Comscantling was run through his body. He pany, the third (3rd) Trustee's dividend was pinned to the barn eight feet from the of 5 per cent. on the original face walue ground, and died in great agony.

crushed and his four children and himself Stone Gap Improvement Company to me, killed and his wife badly injured. About fifty persons were injured and as Bond must be presented to receive its

FATAL TORNADOES.

HOUSES DEMOLISHED AND HUMAN LIVES CRUSHED OUT.

Terrible Work Thursday Night-Towns Destroyed and Many People Killed in Kansas-A Cyclone Thursday Evening in Chicago.

KANSAS CITY, Mo., April 1 .- Last night's tornado entirely destroyed Towanda, Kan., killing twenty people; wrecked Augusta. killing four and seriously injuring many others; did great damage at Wellington, killing several people, and demolished several buildings at Kiowa. Particulars graphic service.

A terrible wind-storm prevails to-day thronghout Kansas, Missouri, and Southern Nebraska. The Western Union reports that they have been loosing wires every minute for the last four hours.

They have only three wires left out of 300. Atchison, Kan., April 1 .- A tornado struck this city at noon to-day, unroofing and demolishing several large buildings, and scattering signs, awnings, and outhouses in every direction. The Sante Fe railroad depot was unroofed, and the chapel at the Scholastic Convent was demolished. The ice warehouse of the Thrall Ice Company was destroyed, and the grocery warehouse of H. Taylor is in ruins. and a portion of the building demolished. A small house in the Missouri Pacific vards was blown into the river. Hundreds of chimneys have been blown down and a great deal of damage has been done. The heavy damage in the country is to fruit trees. The ground is very soft on account of recent rains, and thousands of

FOUR LITTLE CHILDREN KILLED.

The tornado continued in Kansas and the northwestern part of Missouri to-day, but was less destructive. At Wellington the house of a man named Little was demolished, and four little children killed. Another house with thirteen inmates, was picked up and dropped, and everybody in it was more or less hurt. The house of a man named Botterworth was carried bodily through the air 300 yards. Some of the family were fatally hurt.

Later reports say that not a building was left standing in Towanda. The town was asleep when the storm swept down, ruining everything in its path and leav-The stake will be \$25,000 and a side bet ing dead bodies lying in its wake. Four of \$10,000 a side, \$45,000 in all, the lardead bodies have been recovered from pugilism. On June 1, July 11, and Aug. ruins already searched. Twenty persons injured, besides a large number more or less injurad.

At Augusta three were killed outright Harmon Hoskins, James Barnes, end the infant child of Will Rhodes, which was blown out of its mother's arms and dashed against a brick wall. Rhodes himself is fatally injured, as is also the wife of Harmon Hoskins. Fifteen others were more or less seriously injured, according to present reports, but all the wires are down, and it is impossible to get any detailed account from either place.

At Lawrence the wind reached a velociy of eighty-four miles. In Kansas City it reached sixty-four miles, and a great deal of damage was done to signs, glass, insecure buildings, electric-wires, etc.

CONSTANT ADDITIONS TO THE CASUALTIES.

Additions are constantly being made to the storm casualties. In Kansas City, Kan., two persons were fatally injured Among the towns suffering are Marshall, Warrensburg, Chilicothe, and St. Joseph, Mo., and Salina, Olathe, and Ottawa, Kan. Eighty families lived at Towarda, Kansas, and not one of them escaped injury or loss of life to some member.

THREE PEOPLE KILLED.

CHICAGO, April 1 .- At about 6:30 this evening the sky, which had been threatening all the afternoon, became black as night, and in another minute a terrible cloud-burst occurred. The wind blew at a hurricane rate and drove the rain in sheets along the streets, sweeping every movable object before it. The wind was of evelonic force, and at the corner of Halstead and Pearce streets tore down a house and killed three people. Serious damage is reported in various parts of the city, but it is not known whether other casualties have occurred or not.

PROBABLY MORE FATALITIES.

The house which blew down was a seven story brick. It was surrounded by oneand two-story frame dwellings occupied by poor families. Several of these were crushed and three children instantly killed. Three people missing are supposed to be under the ruins-probably dead. Twelve others were injured, of whom two or three are likely to die.

THE DESTRUCTION MUST HAVE BEEN GREAT. OMAHA, NEB., April 1 .- Telegraph wires all over the State are prostrated, and it is impossible to obtain news of the extent of last night's cyclone. The Western Union reports that it has the only wire in operation in Nebraska, and that is on the line of the Elkhorn road. A special to the Bee from Norfolk, on that line, in the northern part of that State, says a cyclone struck the town about 11 o'clock last night and did considerable damage. If this should prove to be the same cyclone which devastated Nelson the destruction must have been great. The storm traversed The hundreds who were injured have 150 miles over the richest farming section and villages. The wind is still blowing a gale here and the wires are down on all still down as a result of last Saturday's
